

about us

If the children are given a Krsna Conscious education from early childhood then there is great hope for the future of the world.

~ Srila Prabhupada

education

The vision of an acarya

The Bhktivedanta Gurukula and International School (BGIS) was founded by A.C. Bhaktivedanta Swami Prabhupada, founder-acharya of ISKCON. He laid the corner-stone in 1975 with vision of imparting real education from the very tender age in spiritual setting.

bgis

Located in the beautiful holy land of Sri Vrindavan Dham, abode of Lord Krishna, BGIS offers the best of both worlds - the traditional & the modern, the Vedic and the contemporary, the spiritual and the temporal. As an International School, we offer the students the world class quality education. Simultaneously students inculcate spiritual values based on teaching given in Bhagavad Gita. Thus, the BGIS experience makes the student a well balanced individual ready to take on life's challenges.

Although primarily a boarding school, BGIS also accepts day scholar students on merit

Quality Teachers

Teachers are responsible for imparting quality education as well as moral values through their personal conduct & examples. In BGIS, teachers come from around the globe and have exemplary character. Teaching includes aesthetics in art, literature and science with emphasis on practical training methodologies. BGIS teachers include many IIT. Graduates who will impart science and mathematics education along with hands-on filled learning. Because of International-mix of teachers, students are privileged to study in a framework that is an interesting blend of both east and west - getting best of both.

Co-curricular: The big picture

Students at BGIS actively participate in many sporting and co-curricular activities. They are provided sporting facilities such as swimming, soccer, vally-ball, basket-ball, cricket, hand-ball, yoga, martial arts and other sports to excel under the watchful guidance of our physical training teachers. They also learn musical instruments art and craft, dance and drama, singing Bhajans & Kirtans. Students also compete and perform in local, state and national sporting and cultural events.

model

Academic Curriculum

Small class rooms allow better teacher-student interaction. The emphasis is not on rote learning, but on understanding of the core concepts underlying subjects such as science, computing, language, mathematics, social and environmental studies through hands-on field learning, laboratory experiments and various social and cultural interactions. The students also develop a high level of proficiency in English and Sanskrit. There is a continuous internal assessment of the students. Students in 10th grade appear for the ICSE exam while students in 12th grade appear for the ISC exam.

Spiritual life : Live & learn

A fundamental and unique aspect of the BGIS experience is regular spiritual practices like rising early, mantra meditation, bhajans, kirtans and shastric studies. Both teachers and students strictly follow four basic tenets of spiritual values- austerity, compassion, cleanliness and truthfulness. Students learn these values by following the devotional practices, through exposure to cow protection and organic farm communities. Students are privileged to attend many retreats in places such as Mayapur, Westbengal, Jagan-natha Puri, Udipi, Gangotri, Jamunautri, & Simla during their stay in BGIS.
